June 25, 2024

Corteva Agriscience Global Headquarters
9330 Zionsville Rd
Indianapolis, IN 46268

9:15 AM to 4:30 PM

TIME	DESCRIPTION	SPEAKER
8:00 AM	Networking, Coffee, Gathering	
8:30 AM	Welcome and Opening Session	<i>Sarah Beth Aubrey, IN-CLIMATE, CEO and Founder</i>
9:10 AM	KEYNOTE SPEAKER: The Future of AI for Agriculture	<i>Claudia Roessler, Microsoft, Director of Agriculture</i>
10:00 AM	BREAK	
10:20 AM	Carbon Capture and Sequestration Open Discussion	<i>Hugh Caperton, VAULT 44.01, VP Land and Business Development</i>
11:00 AM	The Path to Sustainable Agriculture	<i>Chris Cook, Syngenta, Sustainable Solutions Business Head</i>
11:40 AM	Engaging Stakeholders in the Climate Conversation	<i>Bob Inglis, RepublicEN, Executive Director and retired Congressman (SC-04)</i>
12:00 PM	Dismiss to Lunch Lunch - Juniper Spoon, Lali Hess Invocation by Danville FFA	5 for 7 Mini Keynotes Joel Leland - The Nature Conservancy Paul Mitchell - Reliable Energy Jeff Cummins - AES Indiana Dani Murray - Renovo Seed Brian Kortum and Bryan Burns - NIPSCO Facilitator: Rachel Conner - Rachel Conner Consulting
1:30 PM	Opportunities in Sustainable Aviation Fuel	<i>Dallas Gerber, Growth Energy, Director of State Governmental Affairs</i>
2:15 PM	BREAK	
2:30 PM	Do Consumers Care About Carbon Neutral Bourbon? Distillers and Farmers Discuss CI Score and Production Practices	<i>Quint Pottinger, Affinity Farms, Owner</i> <i>Caleb Smith, Keystone Cooperative, Director of Sustainability</i> <i>Bryan Smith, Hard Truth Distilling, Master Distiller</i> Moderator: <i>Jeff Cummins, AES Indiana</i>
3:15 PM	Closing Comments + Adjourn	<i>Sarah Beth Aubrey, IN-CLIMATE, CEO and Founder</i> <i>Jesse Cordray, Indiana Farm Bureau, Public Policy Team</i>

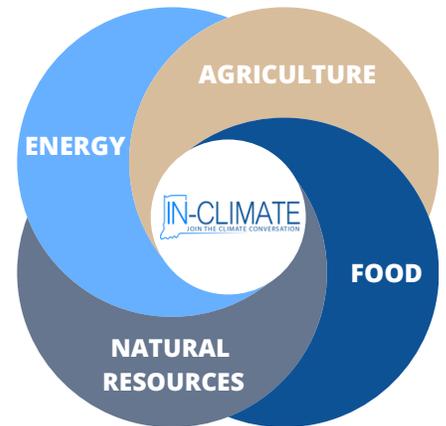

INTRODUCTION TO IN-CLIMATE

What is IN-CLIMATE?

IN-CLIMATE is a growing network of professionals representing the food supply chain, energy, and natural resources sectors seeking to build a productive, practical dialog on climate. In this first-of-its-kind group, members become trusted partners, collaborators, and peer educators that gather for collaborative discussions, educational forums, and information sharing that aims to lead to sound, effective decision-making and balanced climate policy.

Our members participate in advancing their own, unique version of the Six Pillars of the Climate Conversation: carbon markets and carbon sequestration, sustainability and conservation, renewable energy and smart energy transition, advanced bio and renewable fuels, green finance and climate-smart funding, and attention to consumer pressures and public perception.

IN-CLIMATE's home base is Indiana yet we are working to engage broad stakeholders and build a borderless network that represents the global nature of our industries and the climate conversation.

OUR MISSION

IN-CLIMATE's mission is to convene diverse stakeholders across the entire food supply chain in a collaborative dialog to advance decision-making and balanced climate policies.

PURPOSE AND FUNCTIONS

Lead: Challenge and encourage our members and their customers and stakeholders to step into sustainability and the climate conversation in a way that actively represents their goals and supports our agricultural production systems and all consumers.

Collaborate: Work across the food supply chain, natural resources, and energy sectors to improve leaders' awareness and encourage open dialog within the climate conversation.

Inform: Provide resources for climate information, data, and unbiased content on digital platforms.

Explore: Research attitudes and adaptation of climate-related policy and practices through survey collection and data distribution.

Engage: Communicate with founders and stakeholders in quarterly policy round tables, monthly virtual meetings, and annual events to discuss climate.

ABOUT THE SUMMIT

What is the IN-CLIMATE - Ag as the Solution Summit?

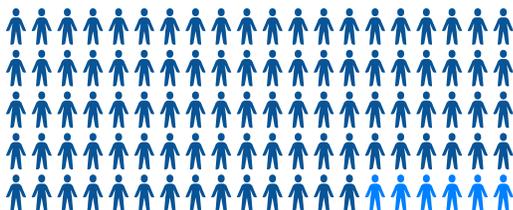

The Indiana Climate Summit is the only gathering of professionals, producers, and government officials involved in midwest's food and energy industries and climate. This event aims to educate, inform, and create a dialogue with the idea of Ag as the Solution. This is an exciting, first-of-its-kind event, with the goal of using all of the above strategies to develop a practical dialogue on this confusing topic.

Working together for a sustainable future

The climate conversation is happening, it's growing. More companies are making sustainable practices a requirement, so why isn't ag and energy leading this? We are truly what makes the world run, we rely on food and power to survive and we have already started implementing sustainability measures. Farms are increasing cover crops, renewable energy access is growing and so are biofuels and ethanol. These sectors of our industry are committing to be a part of the climate conversation, will you be next? Have you considered the climate conversation? The time to get in is now.

HIGHLIGHTS FROM THE 2023 SUMMIT

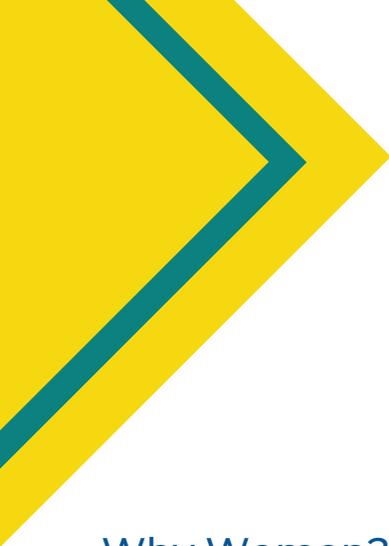

150+ Summit Attendees

55 Organizations Represented

24 Climate Advocate Speakers

THE WISE

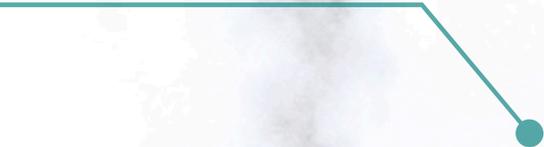

THE WOMEN
IN SUSTAINABILITY
EXPERIENCE

Why Women? Why Now?

The role of women in professional and production agriculture has shifted rapidly in a generation's time. The era when most women began their careers as the only female in the room (or in the field) has evolved to today where many major agricultural colleges graduate more females than men. While women today occupy leading roles across the industry, *The WISE* is a new footprint. IN-Climate is excited to be at the forefront of the climate sustainability discussion by building collaborative and educational opportunities across the sector. Now, we are excited to expand our groundbreaking collaborations to include a defined outreach to women, especially to address the unique challenges of stepping into sustainability leadership positions where, in most cases, the role is entirely new.

The WISE Conference 2024

The WISE is the first-of-its kind program that provides a forum for connecting and educating women to improve their impact and knowledge. Our event will be hosted by Corteva Agriscience and includes a full day of learning and networking. Additionally, this event launches an inaugural series of programming and networking opportunities for women ag-sustainability leaders going forward. Sign up today as a conference add-on to your full Ag as the Solution Summit ticket or attend just this special pre-event. Tickets are limited, so add yours today. The time is now, to shape the future of the food and energy industries, and as women in ag sustainability are leading at the front lines. Come and meet your peers!

SPEAKERS

Sarah Beth Aubrey | IN-CLIMATE, CEO & Founder

Entrepreneur, 6-time author, keynote speaker, catalyst for change
As the leading advisor and coach to global ag brands, Sarah Beth Aubrey is the CEO and Founder of Elevate Ag, LLC, one of the only women-founded and owned agricultural consultancies globally.

Sarah Beth Aubrey is the recognized leader in building coalitions and customer engagement strategies in agriculture and food systems. Her multi-million-dollar company offers four divisions: training and coaching, ag coalition building, customer engagement strategy, and most recently, the addition of IN-CLIMATE, the growing network of companies in agriculture, food, and energy focused on building a productive, practical dialog around climate. Often the first to help propel her industry to address critical topics, with the founding of IN-CLIMATE, Sarah Beth leads her members through sustainability strategy planning, benchmarking producer data about climate change, and convening often divergent partners in the supply chain for education and fostering strategic partnerships.

A sought-after keynote speaker and facilitator, Sarah Beth has been named 40 Under 40 leader to watch in agriculture—twice. She has been featured on Forbes.com, the *Indianapolis Business Journal*, *Top Producer*, and her syndicated column, *Farm CEO Coach*, which has circulation in 10 countries. Clients call Sarah Beth’s work, ‘transformative’ and ‘always ahead of the curve’ and work with her to build powerful peer advisory networks that bridge the communication gap between agricultural producers and their supply partners and develop rich relationships in a complex high volume, low margin business. SBA works with major ag brands including these global fortune 100 and 500 names: Bayer Crop Science, Corteva, Syngenta, Ag Reliant, Valent, Nutrien, Farm Journal, Rabo Agrifinance, Farm Credit Services of MidAmerica, the American Feed Industry Association, NTCA The Rural Broadband Association, and American Farm Bureau Federation.

Sarah Beth holds a B.S from the University of Illinois and an M.S. from Purdue University.

SPEAKERS

Claudia Roessler | Director of Agriculture, Microsoft

Claudia Roessler is Director Agriculture in Microsoft Azure Global Engineering. She is responsible for developing strategic partnerships for Digital Innovation and Ag Tech in the agriculture ecosystem. She helps organizations to achieve growth through digital solutions enabled by data & advanced analytics.

Claudia Roessler joined Microsoft in 1992 in Munich, Germany. Her career is focused on Industry Solutions and Business Development. She assumed international roles in several disciplines including Business Development, Strategy & Operations, Sales & Marketing, and Industry.

Claudia Roessler is also on the Board of Directors for Ag Growth International. She is Venture Partner for Radicle Growth helping Entrepreneurs and Start-ups in Food and Agriculture. She supports “Women for Agriculture” as part of their Advisory Board for Women in Food and Agriculture and MS. AI, a philanthropic initiative uniting people who support our mission to enable 10 million women in Europe with AI by 2023.

Hugh Caperton | Senior VP, Development , Vault 44.01

With over 15 years experience in oil & gas operations, business development and leadership, Hugh has significant experience in land management, permitting and government relations. Hugh also managed capital budgets in excess of \$250mm and participated in raising >\$650mm in equity and debt capital in prior companies.

SPEAKERS

Jeff Cummins | AES Indiana

Jeff has over a decade of campaign, public policy, and leadership experience in Indiana. In his current role with AES, Indiana, he serves as the AES PAC Board Chairman and helps develop and implement the company's strategic legislative priorities. As a member of the Indiana Energy Association, he serves on the Government Affairs and Legal Committees which help steer the Association's governmental and legal issues. Previously, Jeff lobbied for the farmer-members of Indiana Farm Bureau where he served as Director of Public Policy for Environmental and Natural Resources and was an advisor to the AgElect PAC board of trustees. Jeff is originally from Scott County Indiana and moved to Bloomington where he graduated with a bachelor's in political science from Indiana University. He also attended Indiana University McKinney School of law as an evening student while he worked full time in state government. He is a graduate of the Indiana Leadership Forum, the Agri-Institute Ag Leadership Program, is a former State Chair for the Indiana Young Republicans, and a graduate of NARUC's Rate School. He currently serves as a committee member of the ProPEL Indy Study and is AES, Indiana's company representative to the Indiana Construction Roundtable.

Jesse Cordray | Indiana Farm Bureau

Jesse Cordray became the public policy project manager for Indiana Farm Bureau in April 2023. This is a new position for INFB, and Cordray's responsibilities include assisting in managing INFB's grassroots policy development process. He also is responsible for communicating policy development issues to members and staff, as well as tracking and managing the public policy calendar of events and activities. Cordray comes to INFB from the Indiana State Department of Agriculture, where he was deputy director of legislative affairs. He also previously served as press secretary and legislative assistant in the Indiana State Senate, and he held various communications and marketing positions with Klipsch Marketing & Advisors and Indiana Public Radio. An avid sports fan, Cordray also worked for Pacers Sports & Entertainment, including as alumni relations and engagement coordinator. He has bachelor's degrees in journalism and telecommunications from Ball State University with a concentration on news, and he is in the process of getting a master's degree in public management from Indiana University.

SPEAKERS

Chris Cook | Sustainable Solutions Business Head, Syngenta

Chris heads Business Solutions at Syngenta. The focus of Business Solutions is on creating opportunities to connect growers and/or livestock producers' with other members of the value chain, combining consumer demand to grower activity. Chris has been with Syngenta for 25 years. Prior to his current role, Chris headed the Enogen business as well as spent time heading Stewardship and Stakeholder Relations for North America. Chris has also held roles in agronomy including heading Agronomy across all U.S. crops and product lines, heading the U.S. Seeds agronomy group and other various roles in agronomy and sales. Prior to his career in Syngenta Chris also led a retail organization agronomy sales department. He holds a Bachelor's degree in Agronomy from South Dakota State University.

Bob Inglis | RepublicEN

Bob Inglis is the Executive Director of republicEn.org. He was elected to the U.S. Congress in 1992, having never run for office before. He represented Greenville-Spartanburg, South Carolina, from 1993-1998, unsuccessfully challenged U.S. Senator Fritz Hollings in 1998, and then returned to the practice of commercial real estate law in Greenville, S.C. In 2004, he was re-elected to Congress and served until losing re-election in the South Carolina Republican primary of 2010.

In 2011, Inglis went full-time into promoting free enterprise action on climate change and launched the Energy and Enterprise Initiative ("E&EI") at George Mason University in July 2012. In the fall of 2014, E&EI rebranded to become republicEn.org. RepublicEn is a growing grassroots community of more than 10,000 Americans educating the country about free-enterprise solutions to climate change. The organization is a 501(c)(3) operation hosted at the George Mason University Foundation and educates, recruits and organizes conservative voices for action on climate change. For his work on climate change Inglis was given the 2015 John F. Kennedy Profile in Courage Award. He appears in the film Merchants of Doubt and in the Showtime series YEARS of Living Dangerously (episodes 3 and 4), and he's spoken at TEDxBeaconStreet and TEDxJacksonville. Inglis was a Resident Fellow at Harvard University's Institute of Politics in 2011, a Visiting Energy Fellow at Duke University's Nicholas School of the Environment in 2012, and Resident Fellow at the University of Chicago's Institute of Politics in 2014.

SPEAKERS

Quint Pottinger | Owner, Affinity Farms

Quint Pottinger is a farmer from New Haven, Kentucky where he grows 3300 acres of corn, soybeans, wheat and rye. He graduated from the University of Kentucky in 2011 with a bachelors in agriculture economics. Quint serves on the Kentucky Soybean Association board, Kentucky FFA Foundation and the Nelson County Farm Bureau board. He is a former member of the National Corn Growers Resolutions Committee, the Kentucky Haiti Partnership board as an ambassador and mentor to agriculture students and young Haitian Farmers. In 2014 he was recognized by the White House as a Champion of Change for Agriculture and in 2017 was named America's Best Young Farmer by Progressive Farmer magazine. His farm location centered near the bourbon capital has led to working relationships with local distilleries. He and his wife Leah over the last 12 years have traveled to 24 counties learning about ag and economic systems to better understand their end user/consumer. The goal to chart a path forward for the farm enterprise as the marketplace evolves. In his free time he enjoys spending nights out dancing with his wife or relaxing by a fire sipping bourbon.

Bryan Burns | Director of Renewable Assets, NIPSCO

Bryan Burns is Director of Renewable Assets for Nipsco responsible for hydro, wind and solar generation. Bryan has built his renewable organization from the ground up being part of Nipsco's transition to renewable generation from inception in 2019. Bryan has more than 20 years of experience in Operations and Maintenance in the utility sector much of which comes from his coal-fired experience at Nipsco. Bryan also has co-gen experience from his tenure at US Steel as we well as turnaround (large maintenance outage) experience at BP Amoco. He has a Bachelor's of Science degree in Mechanical Engineering Technology from Purdue.

SPEAKERS

Brian Kortum | Director of Environmental Permitting, NIPSCO

Brian Kortum is currently the Director of Environmental Permitting, going into his 23rd year at NiSource. His team has the responsibility to drive environmental permitting and compliance on NiSource's capital program, including gas, electric, and renewable generation, as well as ecological stewardship and biodiversity programs on company managed lands. He graduated from Southern Illinois University in Carbondale, with a Bachelor of Science in Forestry in 1996, and received an MBA from Indiana Wesleyan University in 2011. Brian lives in Crown Point, IN and has been married to his high school sweetheart Kim, for 32 years. Kim is a 6th Grade Language Arts teacher at Crown Point Christian School. They have 3 daughters, Zoe, Jenna, and Megan. Zoe is studying Visual Arts Education at Purdue, Jenna is studying Sustainable Food and Farming Systems at Purdue, and Megan is a Junior at Crown Point HS. They love to travel with their camper visiting all varieties of public lands across the county. Brian's volunteer work includes Bethel Church, and as a Non-Profit Board member for Twin Lakes Camp, The Dunes Learning Center, IVM Partners and the newly formed United Agrivoltaics Heartland Alliance.

Dani Murray | Demand Planning Manager, Renovo Seed

Dani Murray is the Demand Planning Manager at Renovo Seed/Millborn Seeds headquartered out of Brookings, SD. She plays a pivotal role in overseeing company-wide forecasting and supply chain planning to meet future market needs and consumer demands for one of the largest suppliers and distributors of cover crop and small grain seeds in the U.S. With more than a decade of experience, Dani has dedicated her career to serving farmers, ranchers, and companies in the seed and animal health sectors through various marketing and business development roles. Growing up in southwest Minnesota, Dani's deep-rooted passion for agriculture and love for working lands was nurtured by her rural upbringing and her work in the livestock nutrition and health sector. A proud alumna of South Dakota State University, Dani holds a Bachelor of Arts degree in Mass Communications.

SPEAKERS

Joel Leland | Dairy Program Specialist, The Nature Conservancy

Joel brings over a decade of experience to his role as Dairy Program Specialist at The Nature Conservancy (TNC) – North America. Prior to his tenure at TNC, Joel dedicated nearly a decade to environmental consulting before pursuing further education in agriculture. His academic pursuits led to his appointment with the Michigan Agriculture Environmental Assurance Program (MAEAP). Since joining TNC, Joel has helped develop and grow multiple corporate sustainability, farmer-incentive programs, working with dozens of farmers to implement sustainable practices on their farms. Joel also is actively engaged with his local Farm Bureau, participating in various state committees, including the State Membership Committee and Natural & Environmental Resources Advisory Committee.

Dallas Gerber | Director of State Government Affairs, Growth Energy

As Growth Energy's Director of State Government Affairs, Dallas works with members and industry stakeholders to advance pro-bioethanol policies in state governments around the country. Dallas also works with the senior management team and consultants on state regulatory policy. Before starting with Growth Energy, Dallas spent 13 years with the Office of Congressman Bob Gibbs, where he most recently served as Deputy Chief of Staff and Chief Strategist for the campaign. A Philadelphia area native, Dallas currently lives in the Columbus, Ohio area with his wife Jackie.

Caleb Smith | Director of Sustainability, Keystone Cooperative

Caleb Smith is the Director of Sustainability at Keystone Cooperative. In his role, Caleb leads sustainability initiatives across the company's four divisions but has an agronomy-focused background. He takes pride in working alongside growers to integrate regenerative practices into their production systems. He has spent time working as an agronomist with Beck's Hybrids, Indigo Ag, and Yara International. Caleb received his bachelor's degree from Indiana University and his master's degree in agronomy from Purdue University, where he studied cover crops and their ability to improve soil physical properties.

SPEAKERS

Becca Gillespie | Managing Director, Energy Systems Network

Becca Gillespie is the Managing Director for the Energy INsights program at Energy Systems Network (ESN), a non-profit focused on accelerating the commercialization of energy and transportation technology. Before that, she worked as the New Products and Services Lead at Duquesne Light Company, an electric utility company in Pittsburgh, PA. Gillespie also served as a Sales Director and Product Engineer at UniEnergy Technologies, a flow battery start-up company in Mukilteo, Washington. She has also worked at the Federal Energy Regulatory Commission as an energy analyst and Propulsion Engineer at NASA. Becca has a BSE in Mechanical and Aerospace Engineering from Princeton University and a Masters' of Science in Public Policy and Management from Carnegie Mellon University.

Bryan Smith | Master Distiller, Hard Truth Distilling Co.

Bryan Smith is the Master Distiller and Partner at Hard Truth Distilling Co., a grain-to-glass distillery in Brown County, Indiana. As the first and only Master Distiller at Hard Truth, Bryan pioneered a unique path leading to a focus on sweet mash whiskeys that have received international recognition and are now distributed in over 20 states. It is the scientific and creative process behind shaping the flavor of a great whiskey that drives him today.

Rachel Conner | Principal, Rachel Conner Consulting

Rachel Conner is a Hoosier native and lawyer with experience in agriculture, renewable energy, and land use policy. Her career work has varied from farm advocacy to commercial construction litigation to local economic development projects and zoning. She launched her own firm, Rachel Conner Consulting, LLC, in 2023 to provide public affairs and project management services to energy and agricultural stakeholders in Indiana. She holds a J. D. from Indiana University Robert H. McKinney School of Law and a B. A. in Economics and Political Science from Ball State University. Rachel and her husband Josh live in Pendleton, IN with their two sons. Her family operates a dairy and row crop farm in Henry County.

FOUNDER

\$20,000 per year
for two years
OR \$38,000
(5% discount)
paid upfront.

This Membership Level Fits For:

- Organizations that want to demonstrate and invest in their sustainability commitment by funding the state's organization forward. Founders represent their position in this space by leading as a member of the board of advisors.
- Organizations seeking to show investors, customers, and the public their involvement in climate and sustainability even if they are not necessarily ready to publish their own GHG reduction commitments or Sustainable Development Goals (SDGs).
- Organizations that want to show stakeholders that by continuing to work with them, they are working with a company that is part of the climate conversation and is actively working to be climate smart.
- Organizations that desire regular information, knowledge, and education on climate topics to build their own capacity.
- Organizations that want to ensure that the climate conversation in Indiana represents their company and constituents by leading in the space, whether they prefer to do so at the front of the room or behind the scenes.
- Organizations that want support in organizing their internal team around the climate dialog and want third party facilitation to do so.
- Organizations that align with **IN-CLIMATE's 6 pillars**.

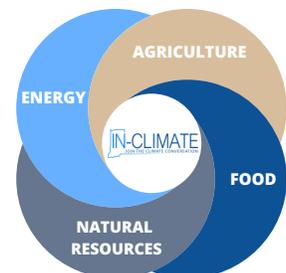

Benefits:

- Upgraded Board of Advisor seat
- Page dedicated to your company on the IN-CLIMATE's website with included video/images and description of your current sustainability success and goals
- Links back to your website
- Company representative photo on IN-CLIMATE website
- Syndicated column package with permissions to use presentations, blog posts, articles, infographics and more (a \$10,000 value)
- A limited number of tickets included to all events
 - Summit
 - Roundtables
 - Stepping into Sustainability
- Use of IN-CLIMATE'S Founder Badge
- Authority to approve new members at the Founder and Investor levels
- Indiana State of Ag Climate Economy report contributor
- Approval of Investor projects and any co-branded projects
- Complimentary annual half-day sustainability strategic planning session facilitated by Sarah Aubrey for your organization
- Bi-monthly Founder calls or video meetings

CONTACT US

inclimateconversations.com

sarah@inclimateindiana.com

STAKEHOLDER

\$5,000 per year
for two years
OR \$9,500
(10% discount)
paid upfront.

This Membership Level Fits For:

- Organizations interested in the climate conversation, yet not desiring in a Board of Advisors seat
- Program managers and leaders looking for a membership price that fits a local budget and typically won't require upper management approval
- Organizations that desire regular information, knowledge, and education on climate topics
- Organizations that want to ensure that the climate conversation in Indiana represents their company and constituents by leading in the space, even if behind the scenes
- Organizations that want support in organizing their internal team around the climate dialog and want third party facilitation to do so
- Organizations that align with **IN-CLIMATE's 6 pillars**

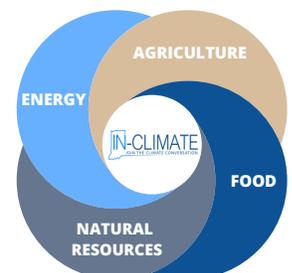

Benefits:

- Attend all private events and meetings, ex: Founder meetings, Roundtables
- Bi-monthly syndicated column package that includes content-heavy articles and infographics (a \$5,000 value) with permissions to use and share with customers or in newsletters
- Annual combined stakeholder-founder meeting
- Listing on IN-CLIMATE website that includes logo and link back to website
- Use of IN-CLIMATE Stakeholder badge
- Option to purchase a half-day facilitated sustainability team planning session
- Access to event tickets at a discount (in-state only)
- Indiana State of Climate Economy Report contributor
